Just Now

We are somewhat torn up on the outside of our storerooms by reason of remodeling our windows. When done we will present quite a formidable "Front." The "Inside," however, represents a herculean strength that only is derived from handling merchandise superior in quality and at the prices we sell them—cheaper by far than the ordinary run of ready-made clothing. Here you find the choice production of four or five of the most famous of Rochester's manufacturers.

None Made and Fit Like Them in the World!

The hundreds of young and old who buy them of us will tell you so. In this season's stock we are stronger than ever before—strong in quality and weak in price. The quantities we buy, and the discounts obtained by paying for them as soon as they come in, enable us to sell you the best at reasonable prices. We cannot tell you much more about our Shoes than you already know. No sensational prices. We simply buy the best made, sell them as low as conforms with good business ethics; and if you buy a pair that are guaranteed to you to wear well, your money back if they don't.

MERZ BROS.' ADVERTISING is an attempt to give people early news of styles of changes in fashion, of shifts in prices, of opportunities to get GOOD THINGS for LESS than usual. The advertisements are on the people's side; tell of defects, if any; put the purchaser in possession of facts that bear out what you need; explain naures of hundreds of things that other merchants rarely talk about frankly—manufacturers' secrets, mercantile systems, buyers' rights and privileges.

In a word, the advertisement puts the buyer in possession of circumstances surrounding the advertised article; gives you the benefit of our inside knowledge regarding what you buy, and after you have bought you have the PRIVILEGE of bringing it back and getting your MONEY BACK. That's our way of doing business.

Kings of Low Prices. Very truly yours, MERZ BROS. Proprietors Bee Hive.

Proclaiming Democracy

PROCLAIMING PRINCIPLES!

Candidates For Senator Formulate Their Platform.

OPINIONS UNWORTHY AMERICANS.

Louisville Evening Post.

KENTUCKY DEMOCRATIC PLATFORM.
Resolved, First.—That "President McKinley was the most mischievous and dangerous politician that has ever sat in the executive chair. Where was the Democrat in Kentucky that would give aid to this man Cooledge, and yet where is the Kentucky Republican that has not given aid and protection to the assassin of William Goebel? How would President Roosevelt feel if Governor Beckham, who offered to give protection to Cooledge, as Roosevelt offered to give it to Taylor, the fugitive? Now Roosevelt is reaping the reward of his infamy."—See Wheeler's speech, Mayfield, September 22.

Resolved, Second.—We charge "that from the time the President's Administration was inaugurated and given power, not one day, not one hour, has passed except their main purpose was to erect mankind upon a cross of gold and to press the crown of thorns upon the brow of labor."—See speech of Charles J. Bronston, Lexington, September 22.

Resolved, Third.—That we denounce those Ministers who, "praying for McKinley, did not pray for Goebel, or who secret prayers to the Throne of grace that the life of that brave citizen, William Goebel, should not be spared, but that the man making the contest against him should be his successor."—See Judge Cantrell's charge, Frankfort, September 9.

Resolved, Fourth.—That we call the attention of the Legislature to the fact that not a single executive officer at Frankfort holds office by the verdict of the people, but solely by the decision of Judge Cantrell, who on appeal reversed the popular decree and gave the office to the Democrats, and we claim for him the verdict, "thou hast been faithful over a few things, and we will make thee ruler over many."—See Judge Cantrell's speech, September 22.

Resolved, Fifth.—That Grover Cleveland yielded to Wall street, sacrificed the party and threatened the very life of the Republic, and yet we rejoice in the fact that we can hardly mention the name of Grover Cleveland in the presence of an honest man, that he does not either charitably turn aside or hiss at the man that had thus proved a traitor, not only to his party, but to his people. —See Bronston's speech, Lexington, September 22.

Resolved, Sixth.—That we repeat and reaffirm the words uttered by our matchless leader, William J. Bryan, at Chicago, in 1896, when referring to the members of the Republican Convention, William McKinley: "No private character, however pure, no personal popularity, however great, can prevent the avenging wrath of an indignant people, a man who will declare that he is in favor of fastening the gold standard upon the country, or who is willing to surrender the right of self-government, and place the legislative control of our affairs in the hands of potentates and powers."

Resolved, Seventh.—That we still adhere, even through clouds and darkness, to our faith in the statement that "if we have a gold standard, it is as certain to fall as the stone which is thrown into the water," by our matchless prophet, W. J. Bryan, at Newton, Ia., August 8, 1896; therefore, and finally.

Resolved, Eighth.—That we shall stand now and forever for the immediate, unconditional and unlimited coinage of silver at 16 to 1, without waiting for the consent of the American or any other nation.

The total emigration of Swedes to America during the last fifty years has exceeded \$50,000, while about 100,000 Swedes have gone to other countries. Of the emigrants to the United States only 6 per cent. have returned to their native country.

With CHARLEY WHEELER slandering the name of President McKinley and JIM CANTRELL boasting that he used his judicial power for political purposes, is it any wonder that the Democratic State Campaign Committee has muzzled these rabid animals?

In 1899 the United States exports to Europe were valued at \$936,000,000, and the imports from there were worth only \$553,884,000; in 1900 the amount was \$1,040,000,000, against \$415,600,000. In other words, under the Protective Tariff system the United States sold to Europe two and a half—sometimes even nearly three times—as much as it bought from Europe. If any Free-trader can produce such a record for his "fid," THE LEADER pledges itself to become at once an advocate of Free-trade.

The four Democratic aspirants for the United States Senate—McKINLEY, WHEELER, SMITH and CANTRELL—were scheduled for six "joint debates" but at the first one in this city, WHEELER and CANTRELL gave such a magnificent exhibition of assiduity and venom, that the Democratic State Campaign Committee canceled the remaining five. But that matters little. There was enough of the first to go all over the state, and the Republicans and DICK KNOTT are attending to the sending of it.

"JUDGE" JAMES E. CANTRELL, the Mouthsmith, has been working his tongue around some of the members of the Convention at Central City a few days ago, and while a Committee was out fixing up a list of Delegates he was called on to speak a speech.

Of course he spoke a speech.

After lamenting the fact that he had never been given an opportunity to name from the Bench a Lieutenant-Governor for Kentucky, and deploring that this lost opportunity would oblige the next Senate of Kentucky to choose its own presiding officer, he "judged" of the whiff-kettles and venom unlimbered his jawbone after this fashion:

"Now, my fellow-Democrats, suppose the Republicans get possession of the Senate. They will elect their presiding officer, and this officer will be the de facto Lieutenant-Governor. Who knows what will become of Beckham? Who knows but what they will put him out of the way? In order to let a Republican succeed him!"

The enthusiasm that followed this eloquent outburst set a three-ton haystack on fire in the next county.

WOMEN AND JEWELS.

Jewels, candy, flowers, make that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even the greatest of all jewels, health, is often refused in the strenuous efforts to make up for the loss of the one which is the most precious of all.

It is a certain cure for coughs, colds and all bronchial troubles. You can get it at C. C. C. Co.'s reliable remedies at J. J. Wood & Son's, Druggists, corner West Second and Market streets, proved to be invaluable. ADM. BOB EVANS.

Admitted That the Brooklyn Was Ahead in the Battle When He First Saw Her.

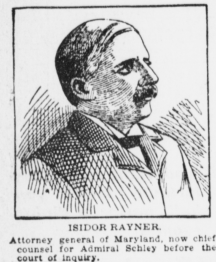

RECALLED TO THE WITNESS STAND.

Testified as to the Report of Capt. McCalla, of the Marblehead, and "Plan of Battle."

Capt. Stagner, Thomas M. Dienne and Chief Yeoman Gustave E. Becker Examined by Schley Court of Inquiry.

Washington, Oct. 2.—The Schley court of inquiry made good headway again Tuesday, concluding with Adm. Evans and hearing three new witnesses, the testimony of one of them was not concluded when the court adjourned for the day. Adm. Evans' testimony was along the same general lines as was that of the admiral, but some points were presented in greater detail in response to questions by Mr. Rayner.

In cross-examination Adm. Evans Mr. Rayner said: "I want to call your attention to the report of Capt. McCalla, of the Marblehead, on page 426 of the appendix, which says: 'Commodore Schley explained to the commanding officers that in case Spanish ships came out he wished to concentrate the fire of all our ships on a portion of those of the enemy. This was not explained as a tactical consideration of our whole force on a part of the fleet, but as a desire of our whole fire on several of the enemy's ships. During the time the commanding officers were on board the flagship Capt.

ISIDOR RAYNER. Attorney General of Maryland, now chief counsel for Admiral Schley before the court of inquiry.

Evans asked Commodore Schley if it were his intention to steam at the enemy's ships in case they should start to come out. Commodore Schley answered "certainly," and added words indicative of his intention to attack them as they came out of the narrow defile.

"I recollect it perfectly," "Is that a correct statement?" "That is correct." "So there was a plan of battle arranged by Commodore Schley, was there not?"

The Plan of Battle. "There is nothing there to indicate it from what you have read." "Was not that the same order that was afterward given by the admiral in chief, substantially: 'Close in toward harbor entrance and attack them?'"

"You have not read anything about indicating any plan of battle." A discussion of the inaccuracies of the department's charts of the Cuban coast line arose over an endeavor by Rayner to ascertain the distance between the points where the Quenda and Maria Teresa went ashore and that of the Vaca.

Evans explained that the Iowa did not run alongside the Vaca, but in a course parallel to the shore. When I first saw the Brooklyn, the Texas was off the port quarter of the Colon; the Oregon off the port quarter of the Texas, and the Brooklyn to the south of the Texas port bow," said the witness in answer to a question by Rayner. "The Brooklyn was ahead."

The new witnesses were Capt. Stagner, who commanded the scout St. Paul during the Santiago campaign; Mr. Thomas M. Dienne, a newspaper correspondent, who was on an Eric freight tug south of here Tuesday evening; Neville was the inventor of the international cable and telegraphic code in use in all parts of the world.

GETTINGGRESS

The London Newspapers Are Commenting on the Prolonged War in South Africa.

MYSTERY SURROUNDS OPERATIONS.

The Struggle About to Enter Upon its Third Year in the Transvaal and Natal.

The Daily Mail Finds Evidence That Lord Kitchener is in a Difficult Predicament and Needs Reinforcements.

London, Oct. 2.—Within two weeks the war in South Africa will have entered upon its third year, and in the face of a recrudescence of organized operations by the Boers and the impossibility of carrying out Mr. Brodrick's promise to reduce the war expenses by sending home troops, the government's organs are again becoming restless.

There is a mystery surrounding the operations, and the whole situation in Natal and the Transvaal and the war of the office concerning the alleged friction between Mr. Brodrick and Lord Kitchener form the subject of editorial protests on all sides.

"We have the right to expect," says the Standard, "that the government will lose no time in sending out such ample reinforcements as the military chiefs on the spot deem necessary."

Repeated Blunders. The Daily Mail, which finds evidence that Lord Kitchener is in a difficult predicament, and fears that the government is delaying reinforcements out of a desire to avoid summoning parliament to vote the necessary supplies, warns the government that this is the case a grave risk is being run.

The Times, after reminding the government of the "repeated blunders and miscalculations which have cost the empire such a terrible price," says: "A third campaign has now opened in South Africa and there is no sign that the government is doing anything to prepare for possibly the dragging out of the war for several months more. Already it is too late to provide such a mobile force as would be indispensable for this purpose. The government doing anything to provide it even three months hence, and if not, what possible excuse can the government urge for this neglect?"

A DRIFTING MATCH.

The Race Between the Columbia and Shamrock II. Tuesday Was a Dismissal Failure.

New York, Oct. 2.—Tuesday's attempt to sail the second of the present series of international yacht races for the blue ribbon of the sea proved a dismal failure. Between 25,000 and 30,000 people who crowded the pleasure fleet of Sandy Hook lightship in the hope of seeing a repetition of the thrilling sport of last Saturday, witnessed, instead, more of a drifting match than a race. The wind was feeble, the sea light and variable, and the yachts had covered less than one-half of the prescribed course of 30 miles, and as there was the possibility of their finishing within the time limit, the regatta committee delayed the race off.

SEVENTEEN MEN ENTOMBED.

The Extension Mines Near Nannamoo, B. C., Sealed to Smother the Flames.

Nannamoo, B. C., Oct. 2.—The situation at Extension mine remains practically unchanged. Seventeen are known to be entombed in No. 2 slope. The mines are now sealed to prevent the ingress of air and so another the flames. This is the only possible way of killing the fire, and it will take months and perhaps years to effect the result desired. All efforts have so far failed to prevent a certain amount of air leaking in, and this has once or twice caused explosions which have blown out the stoppings. Such explosions on a large scale would utterly wreck the mines.

Thanked For Message of Condolence. London, Oct. 2.—Mr. Choate, United States ambassador, attended Lord Lansdowne's reception of the members of the diplomatic corps at the foreign office and thanked the secretary of state for foreign affairs for the message of condolence on the occasion of the death of President McKinley.

Columbia, Mo., Oct. 2.—The first case of hazing that has occurred at Missouri university in many years was reported to the disciplinary committee of the faculty Tuesday. S. A. Thorton was the victim. Under the supposition that he was to be initiated into a secret fraternity he was enticed to the woods, stripped of his clothing, and was then thrashed with switches. His hair was clipped close to his head by his tormentors, who, after hiding his clothing, desecrated his body. It was very dark and cold, the victim suffered severely as he wandered through the trees and bushes in quest of his garments.

Thorton reported the matter and requested an investigation, but, as the victim was unable to identify a single student implicated, nothing has yet been done toward punishing the malefactors.
